

Why Vertex for Oracle

Global Indirect Tax Solutions across the Oracle ecosystem

Consolidate, Transform, and Grow with Vertex

For more than 30 years, Vertex has been a leader in the Oracle ecosystem, setting the standard for integrated tax technology innovation and performance. Our solutions are jointly developed with and validated by Oracle, delivering integrations that are deeply embedded and natively hosted on Oracle Cloud Infrastructure (OCI) for exceptional scalability, security, and performance. Vertex solutions don't just extend the value of Oracle—we empower businesses to modernize

and grow without limits, elevating tax data governance and global tax compliance with comprehensive global tax content, and intelligently automated solutions in a single, integrated end-to-end platform.

Moving to Oracle Cloud ERP?

The Vertex O Series integration is Oracle-certified, Oracle Cloud-embedded, and Oracle-aligned — and we're committed to helping you modernize your ERP. You always have a choice, and we're here to work with you, on your terms.

Why Vertex for Oracle

Trusted, Longstanding Oracle Partnership

- 30+ years of strategic collaboration and co-development with Oracle
- Member of Oracle Partner Network (OPN), recognized as an Oracle Build Partner, achieving both Powered by and Integrated with Oracle Cloud
- 2,000+ joint global customers across industries, including some of the most valuable brands in the world
- Co-developed, certified integrations for Oracle Cloud ERP, E-Business Suite, JD Edwards, and NetSuite
- Vertex solutions are trusted by Oracle to manage their own tax complexity
- Vertex is the only tax technology vendor to be recognized with Oracle's ERP/EPM ISV Partner of the Year and Visionary Awards

Deployment Flexibility

- Vertex supports Oracle customers across all paths: SaaS, On-Demand, On-Premise, Edge.
- Vertex provides the broadest and deepest Oracle Cloud application and module support including ERP Cloud, SCM Cloud, HCM Cloud, and CX Cloud
- Oracle customers are not forced to switch — Vertex provides a single, integrated solution that works across Oracle ERPs, regardless of whether you're hosting in Oracle Cloud Infrastructure (OCI), AWS, or another cloud environment.
- Vertex can be deployed locally in Europe, enabling compliance with data/cloud sovereignty requirements.
- The Vertex Accelerator for Oracle Cloud ERP offers intuitive, push-button, automated setup and configuration of the Vertex tax engine with Oracle Cloud ERP, accelerating time-to-value.
- The Accelerator also provides enhanced data granularity, improving tax data governance and data quality to fuel downstream tax compliance processes.

Tax Performance at Scale

- Real-time tax automation across complex transaction environments, from a single integrated, global solution
- Deep global tax content (19,000+ jurisdictions)
- Certified support for sales & use tax, consumer use tax, VAT, GST
- End-to-end solutions for tax determination, exemption management, invoicing, e-invoicing, and compliance
- Proven AR and AP performance optimization (20% and 14% improvements on OCI¹)
- Vertex solutions process billions of transactions each year on OCI

Services and Support that Scales With You

- Dedicated, global team of Oracle-certified service and support specialists
- Pre- and post-implementation services
- HDI-certified², 24x7 global support
- Tax-specific consulting and managed services

Customer Choice

- You can ask — or insist — to keep Vertex during any Oracle-led migration
- We'll work with your internal teams and implementation partners to make that happen

We'll Work With You

- Predictable pricing, flexible commercial terms and implementation models
- Proven ability to support timeline, resourcing, and deployment needs
- Committed to minimizing disruption and cost while maintaining tax compliance

Benefits Across the Enterprise

For Tax Professionals:

- Stay audit-ready and globally compliant, even during an ERP transition.
- Retain control over tax logic, exemption certificates, and e-invoicing.
- Eliminate disruption by maintaining the trusted platform you already know.

For IT / ERP Stakeholders:

- Vertex is fully-integrated and certified with Oracle Cloud ERP, E-Business Suite, JD Edwards, NetSuite and hybrid models.
- Deployment models align to OCI strategy and future cloud expansion.
- Centralized, API-driven extensibility reduces IT complexity.

For Finance Executives:

- Avoid reimplementation costs and ERP disruption.
- Reduce total cost of ownership while increasing visibility and automation.
- Maintain predictable tax platform costs across modernization phases.

Vertex vs Other Tax Providers

Oracle Integration	Vertex offers certified integrations across Oracle Cloud ERP, E-Business Suite, JD Edwards, and NetSuite. Other providers' native Oracle support is more limited and linked, not embedded.
Complex Scenarios	The Vertex integration supports the data fields needed for complex tax scenarios and requirements. Other providers' integrations are more limited.
Ecosystem Support	Vertex provides the broadest support across the Oracle ecosystem, including ERP Cloud, SCM Cloud, HCM Cloud, and CX Cloud. Other providers' solutions are limited.
Deployment Options	Vertex provides SaaS, On-Demand, On-Premise, and Edge. Other providers support only multi-tenant SaaS.
Customization & Control	Vertex enables configurable logic and workflows. Other providers are more standardized and rigid.
Global Tax Content	Vertex leads with the deepest content and jurisdictional coverage in the industry. Other providers are primarily US-centric.
Support & Service	Vertex is the only provider with HDI-certified ² support and Oracle-specific services. Other providers' support is often general and non-specialized.
ERP Focus	Vertex has decades of investment and strategic alignment with ERP leaders like Oracle, SAP, and Microsoft. Other providers focus on e-commerce and SMB.

Accelerate Growth with Vertex

A Vertex tax determination solution provides a globally accessible tax framework - reliable, efficient, and scalable tax determination for organizations. Whether you're migrating to Oracle Cloud ERP or stabilizing your Oracle environment, Vertex is ready to move forward with you — without compromise or disruption.

¹ In a comprehensive evaluation conducted by Vertex spanning three distinct workloads and hardware tiers to accurately reflect the transaction volumes of our customer base, Vertex found that customers migrating with Vertex solutions on OCI have reported a boost in performance, with an average increase of 20% in Accounts Receivable processing and 14% in Accounts Payable processing.

² Vertex is the only tax technology provider to earn HDI Support Center Certification, awarded for 6 consecutive years, recognizing a commitment to excellence, efficiency, and service quality.
